Executive Summary

Table of Contents

- I. Introduction
  - A. Purposes of the Stewardship Plan
  - B. National Wild and Scenic Rivers System / Partnership Wild and Scenic Rivers
- II. York River Wild and Scenic Study
  - A. Background
  - B. Study overview
  - C. York River Study Committee
  - D. Study area
  - E. PWSR designation recommendation
    - 1. Summary of suitability and eligibility findings
    - 2. NPS Study Report to Congress
- III. Stewardship Plan Development
  - A. Goals and guiding principles
  - B. Stewardship Plan development approach
  - C. New studies
  - D. Outreach activities and public/stakeholder input
- IV. Administrative Framework for York River Stewardship Committee and Stewardship Plan Implementation
  - A. Core responsibilities
  - B. Membership
  - C. Procedures to establish the Stewardship Committee
  - D. Stewardship Plan review and updates
  - E. Funding and expenses
  - F. Review of proposed projects
- V. York River Watershed
  - A. Overview
  - B. Land use and population
  - C. Town and regional plans
  - D. Local regulatory framework
  - E. Major threats
    - 1. Development, build-out study findings
    - 2. Sea level rise, extreme precipitation, other environmental change
- VI. Watershed Resources
  - A. **Natural Resources**

1. Watershed lands
2. Wildlife, habitat, and biodiversity
3. Water resources
4. Watershed resilience and climate adaptation

**Stewardship objectives and key actions**

**B. Working Waterfront, Recreational Resources, and Community Character**

1. York Harbor
2. Working waterfront
3. York River recreation
4. Watershed lands recreation
5. Scenic/open spaces

**Stewardship objectives and key actions**

**C. Cultural and Historic Resources**

1. Cultural landscapes
2. Archaeological heritage (prehistoric and historic archaeology sites)
3. Historic districts, buildings and structures
4. Resource threats
5. Federal, state and local protections and preservation programs

**Stewardship objectives and key actions**

**D. Community Stewardship - summary**

**Stewardship objectives and key actions**

- VII. Stewardship Objectives and Key Actions (*table/list of objectives and actions from all resource areas*)
- VIII. Partnership Wild and Scenic River Designation (*eligibility and suitability findings*)
  - A. River segments and classification
  - B. Free-flow analysis
  - C. River-related ORVs
  - D. Local capacity and support for resource protection and designation (*warrant articles; town votes*)
- IX. References and Additional Resources (*might list in each watershed resource section instead*)

List of Tables, List of Figures

Appendices

- Acronyms list
- Maps
- Sections from SMPDC assessment report (*existing regulations and management framework*)
- Data and planning resources: data sets used in build-out study; story map presentations

Separate volumes

- Northeast Archaeology Research Center Report (2017 archaeology survey)
- Groundroot Preservation Group Report (2017 architectural history survey)
- Wells National Estuarine Research Reserve Report (2017 diadromous fish and habitat survey)
- Southern Maine Planning Commission Report (2018 watershed build-out study and recommendations)
