

ARTICLE 2 on York's Ballot

TWO: Shall the Town endorse the York River Study Committee's recommendation to seek Wild and Scenic River designation for the York River and its major tributaries with the understanding that designation would not involve National Park Service ownership or management of lands, and further, accept the committee's York River Watershed Stewardship Plan?

Statement of Fact: The York River Wild and Scenic Study, which was authorized by the US Congress, evaluated the York River for inclusion in the National Wild and Scenic Rivers System under its "Partnership" river model. The York River Study Committee believes a Partnership Wild and Scenic River designation would provide key financial resources, technical assistance, and a local structure to best enable implementation of the York River Watershed Stewardship Plan. The Stewardship Plan is a non-regulatory guidance document that recommends strategies to preserve important historic, cultural, economic and natural resources in the York River watershed consistent with goals in towns' comprehensive plans.

Community support for designation and acceptance of the Stewardship Plan is a prerequisite to Partnership Wild and Scenic River designation. However, such endorsement does not commit the Town to provide any financial resources. Funding to implement the Stewardship Plan is anticipated to come from annual Congressional appropriations through the National Park Service's Partnership Wild and Scenic Rivers Program if the York River is designated. There is no land ownership or management by the National Park Service, and there are no required changes to local ordinances with a Partnership Wild and Scenic River designation.
